DETAILED ACTION

Restriction

The examiner acknowledges applicant's election, with traverse, of the claims of Group I as the group elected for prosecution. Applicant's arguments have been carefully considered and are persuasive. The restriction was improper and is hereby withdrawn.

Specification

The abstract of the disclosure is objected to because it is merely a copy of the first page of the corresponding PCT. A clean abstract on a separate sheet of paper is required. See MPEP § 608.01(b).

Double Patenting

Claims 1 and 67-83 of this application conflict with claims 1-13, 27, 53, 55, 57 and 50 of Application No. 10/391,216. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

Claims 1 and 67-83 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-13, 27, 53, 55, 57 and 60 of copending Application No. 10/391,216. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
